**2018-2019 SCHOOL YEAR**

**WAINSCOTT COMMON  
SCHOOL DISTRICT**

P.O. Box 79  
47 Main Street  
Waincott, NY

## **Introduction**

Emergencies and violent incidents in school districts are critical issues that must be addressed in an expeditious and effective manner. Districts are required to develop a District Wide School Safety Plan designed to prevent or minimize the effects of serious violent incidents and emergencies and to facilitate the coordination of the district with local and county resources in the event of such incidents or emergencies. The district wide plan is responsive to the needs of the Wainscott Common School District and is consistent with the more detailed Building Emergency Response plan required at the school building level. Districts are at risk of a wide variety of acts of violence, natural, and technological disasters. To address these threats, the State of New York has enacted the Safe Schools Against Violence in Education (SAVE) law. This component of Project SAVE is a comprehensive planning effort that addresses risk reduction/prevention, response, and recovery with respect to a variety of emergencies in the school district.

School safety is the job of the entire school community. This effort requires leadership and coordination by school administration, and involvement and participation from all sectors of the school community. Planning, conducting drills and participating in exercises with law enforcement, fire, emergency officials and other members of the school community ensures a comprehensive, unified approach to the Building Emergency Response Plan. Building relationships and community engagement are vital to building a safer school community.

The Wainscott Common School District supports SAVE Legislation, and has engaged in a planning process. The Superintendent of Schools/Building Principal encourages and advocates for ongoing district wide cooperation and support of Project SAVE.

### **A. Purpose**

The Wainscott Common School District Wide School Safety Plan was developed pursuant to Commissioner's Regulation 155.17 by a team appointed by the Board of Trustees for this purpose

### **B. Identification of District Wide School Safety Team**

The Wainscott Common School District has appointed a District Wide School Safety Team consisting of, but not limited to: Teachers, an administrator, a parent and a community member. Positions/affiliations are as follows:

- Superintendent/Building Principal
- Town Police
- Town Fire Department
- Teacher (1)
- Teacher (2)
- Community Member
- Parent
- Town Emergency Representative

### **C. Concept of Operations**

- The District Wide School Safety Team built upon what was already in place, specifically the existing Emergency Response Plan that had been developed in 2001 and updated yearly. This was done to provide employees with readily available information about how to respond to a crisis. In addition, on a regular basis staff meetings are held in the Wainscott School on issues related to school violence, the planning process for dealing with crises, violent behavior in our society and assessing threats.
- The District Wide Safety Plan is linked directly to the individual Building Emergency Response Plan updated for the Wainscott School. Protocols reflected in the District Wide Safety Plan and New York State SAVE legislation have guided the development and implementation of the Building Emergency Response Plan.
- In the event of an emergency or violent incident, the initial response will be by the Building Response Team.
- Upon activation of the Building Response Team, the Superintendent of Schools or his/her designee will be notified and, where appropriate, local emergency officials will also be notified.
- Efforts may be supplemented by County and State resources through existing protocols.

This Plan seeks to develop a solid framework upon which the Wainscott Common School District can provide:

- A safe learning environment for our students
- A thorough and thoughtful process for responding to a wide range of emergency situations

### **D. Plan Review and Public Comment**

- This plan shall be reviewed and maintained by the District Wide School Safety Team and reviewed on an annual basis on or before July 1 of each year.
- Pursuant to Commissioner's Regulations 155.17 (e)(3), this plan will be made available for public comment 30 days prior to its adoption. The District Wide Plan may be adopted by the Board only after at least one public hearing that provides for the participation of school personnel, parents, and any other interested parties. The plan must be formally adopted by the Board of Trustees.

- While conforming to the District Wide Safety Plan, the Building Emergency Response Plan shall be confidential and shall not be subject to disclosure under Article 6 of the Public Officers Law or any other provision of law, in accordance with Education Law Section 2801-a.
- Full copies of the District Wide School Safety Plan and any amendments will be submitted to the New York State Education Department within 30 days of adoption. Building Emergency Response Plans will be supplied to local and State Police within 30 days of adoption via the NYSED Portal.

The effectiveness and efficiency of these drills will be reviewed and addressed by the School Superintendent/Principal and the Building Response Team.

All personnel who regularly answer phones have received and placed a card near their phones with protocols for gathering data in the event of a bomb threat made over the phone.

Violence prevention in our district is not an individual effort but a collaborative effort by all staff and faculty who continually seek out research based programs, academic intervention programs, counseling initiatives and implement skills that they acquire. Our teachers, teaching assistants, secretary, administrator, custodian and support staff all work together to offer a safe school climate.

The District Wide School Safety Team will recommend additional resources, programs and training as needed.

### *Implementation of School Security*

Security measures adopted by the district include:

- Visitors to the building are identified on the exterior security cameras prior to gaining access into the building.
- After identification, visitors are required to sign in the office.

Additionally, notification of the disaster or act of violence may be made throughout the district via telephone, email, fax, district web site and the local media.

#### *Protective Action Options*

During certain emergency situations, one of a variety of protective actions needs to be employed. Summaries of the options are found below. Detailed plans associated with procedures for the school building will be incorporated into the Building Emergency Plan.

- **School Cancellation** will be used when information regarding a potential crisis is received with enough lead-time to alert all staff and students, such as weather-related incidents for which ample warning may be provided
- **Early Dismissal** will be used when school is in session and there is time to return staff and students to their homes and more than 15 minutes remain in the school day
- **Evacuation/Relocation** will be used when school is in session and it has been determined that the school does not provide a safe environment for staff and students
- **Sheltering** will be used when school is in session and it is determined that early dismissal and evacuation are not safe options. This response is to be implemented whenever a situation exists that makes staying inside safer than being outdoors. Examples might be hazardous weather conditions and toxic environmental releases
